

HART 3M Series O-Rings

EPDM RUBBER O-Ring

| Typical Properties of EPDM | |
|--------------------------------|---|
| Color | Black |
| Temperature Range | -60 to 300F (excellent compression set resistance) |
| Continuous Service Temperature | 275-300 F |
| Chemical Resistance | Excellent hot water and steam resistance Good low temperature flexibility Excellent resistance to most polar solvents Not recommended for applications for non-polar solvents (fuels, petroleum oils, etc.) |

| HART O-Ring Size | HART PART NUMBER |
|------------------|------------------------------|
| 3" | HART 3M Series Size 10, EPDM |
| 2.5" | HART 3M Series Size 9, EPDM |
| 2" | HART 3M Series Size 8, EPDM |
| 1.5" | HART 3M Series Size 7, EPDM |
| 1.25" | HART 3M Series Size 6, EPDM |
| 1" | HART 3M Series Size 5, EPDM |
| 3/4" | HART 3M Series Size 4, EPDM |
| 1/2" | HART 3M Series Size 3, EPDM |
| 1/4" | HART 3M Series Size 2, EPDM |
| 3/8" | HART 3M Series Size 1, EPDM |
