

Sure Seal O-Ring Unions

TWO COATING OPTIONS ONE TRUSTED UNION

HART offers both NSF/ANSI-61 certified dielectric coating and industrial dielectric coatings on our Sure Seal O-Ring Unions.

POTABLE WATER SAFE

CORROSION RESISTANT

MATERIAL TRANSITION

BUILT FOR RELIABILITY

DIELECTRIC COATING

NSF/ANSI-61 CERTIFIED DIELECTRIC COATING

COATING OPTIONS WE OFFER

DIELECTRIC COATING

Isolates dissimilar metals to help prevent galvanic corrosion in piping systems.

APPLICATIONS:

- Oil and Gas
- HVAC systems
- Industrial piping
- Chilled water systems
- Any system with dissimilar metals that requires electrical isolation

NSF/ANSI-61 Certified Dielectric Coating

Meets NSF/ANSI 61 requirements for safe use in potable water systems.

APPLICATIONS:

- Potable water systems
- Drinking water distribution
- Water treatment systems
- Potable water applications requesting NSF/ANSI-61 Certification

BUILT FOR THE APPLICATIONS THAT MATTER

POTABLE WATER

INDUSTRIAL FACILITIES

COMMERCIAL BUILDINGS

HVAC

IRRIGATION

OIL AND GAS

WATER TREATMENT
